

Parenteral Drug Association and INTERPHEX Announce New Mini Training Sessions to Take Place at INTERPHEX 2023 Event

Norwalk, CT, March 28, 2023 – INTERPHEX and Parenteral Drug Association (PDA), a ten-year Premier Association Supporter of INTERPHEX, have announced new, mini training sessions sponsored by PDA, to take place during the INTERPHEX 2023 event, April 25-27, at the Javits Center in NYC.

PDA is a leading provider of science, technology and regulatory information and education. The PDA Mini training sessions will enhance INTERPHEX's cutting-edge technical conference program and allow attendees to gain hands-on knowledge in the areas of contamination control regulations and trends, manufacturing technologies and techniques, environmental surveillance, and more.

"PDA, which celebrates its 77th birthday this year, continues to be a strong supporter of INTERPHEX and we are very excited to once again provide technical sessions and to introduce our new mini training sessions at this incredibly important event," says David Talmage, Vice President of Education at PDA.

PDA Mini Training Sessions:

Tuesday, April 25 | 10:15am – 11:15am

Cleanroom Cleaning and Disinfection

Trainer: Brent Watkins

PDA's Technical Report No. 70 (TR70): Fundamentals of Cleaning and Disinfection Programs for Aseptic Manufacturing Facilities provides insight into current industry trends and regulatory expectations concerning cleaning and disinfection of an aseptic facility. This mini training course, presented by one of the authors of TR70, will highlight different aspects of the technical report as it relates to the warehouse to the filling line, focusing on the aseptic processing area.

Tuesday, April 25 | 11:30am – 12:30pm

Characteristics of Pharmaceutical Elastomers in Parenteral Packaging Systems

Trainer: Katie Falcone

In this mini training course, you will gain insight into the fundamentals of pharmaceutical elastomers with practical considerations. Industry experts will describe component selection strategies, review manufacturing technologies, component processing and sterilization techniques.

Tuesday, April 15 | 4:15pm – 5:15pm

Environmental Monitoring Sampling – Isolator/RABS Gloves

Marc Glogovsky

Environmental surveillance is a tool utilized to evaluate the effect of controls on the manufacturing environment. A process to assess the cleanroom and other controlled environments of a pharmaceutical

facility can serve as an adjunct to the sterility assurance program for the microbial quality of drugs. This mini training course will review the methods to environmental monitoring sample isolator/RABS gloves.

INTERPHEX has been, and continues to be, the premier pharmaceutical, biotechnology, and device development and manufacturing event where you can “Experience Science through Commercialization.” The event is based in New York and brings approximately 8,000 global industry professionals and industry leading suppliers together to “Learn it, Experience it, Procure it” through a unique combination of exhibits, demonstrations, partnering opportunities, networking and no cost technical conference to leverage quality, efficiency, and cost effectiveness in today’s ever-changing global market. INTERPHEX offers annual domestic and international industry events and educational opportunities around the world. INTERPHEX and INNOPHEX together, offer the very latest intelligence cutting-edge technologies. and state-of-the-art innovation throughout the product development life cycle. Follow INTERPHEX on Facebook, LinkedIn, Instagram, YouTube, and Twitter. INTERPHEX continues the learning beyond the show floor. For more information, visit <http://www.INTERPHEX.com>

RX is in the business of building businesses for individuals, communities and organizations. We elevate the power of face to face events by combining data and digital products to help customers learn about markets, source products and complete transactions at approximately 400 events in 22 countries across 42 industry sectors. RX is passionate about making a positive impact on society and is fully committed to creating an inclusive work environment for all our people. RX is part of RELX, a global provider of information-based analytics and decision tools for professional and business customers. www.rxglobal.com

Parenteral Drug Association (PDA) is the leading global provider of science, technology, and regulatory information. The PDA creates awareness and understanding of important issues facing the pharmaceutical and biopharmaceutical community and delivers high-quality, relevant education to the industry. Since its founding in 1946 as a nonprofit organization, PDA has been committed to developing scientifically sound, practical technical information and expertise to advance pharmaceutical / biopharmaceutical manufacturing science and regulation, so members can better serve patients.
