Freudenberg Medical Appoints New President Specialty Components

BEVERLY, MASS. – April 15, 2024 – Freudenberg Medical has announced the appointment of Keith Keirnan as President of the Specialty Components division. Keith will oversee operations of Freudenberg Medical’s global molding and extrusion business, as well as the biopharmaceutical products group.

Keith comes to Freudenberg Medical with 26 years of experience in B2B consumer goods and medical product manufacturing. In previous executive positions at APTYX and Flex Health Solutions he successfully orchestrated new product introductions and transferred complex manufacturing platforms. Keith has a bachelor’s degree from Villanova University and completed the Program for Leadership Development at Harvard Business School.

“I am excited to lead the specialty components group at Freudenberg Medical and enhance our biopharma solutions portfolio,” said Keith Keirnan. “Freudenberg Medical is a great company with innovation at its core. Working with our talented team we will continue to push the envelope with new products and innovative technology to advance healthcare manufacturing and drive value for our customers.”

About Freudenberg Medical

Freudenberg Medical is an innovative manufacturer of medical devices, tubing and product solutions for the global medical device and biopharmaceutical market. With 11 manufacturing operations and more than 2,600 associates worldwide, Freudenberg Medical offers a wide range of capabilities from precision molded components and tubing to drug coatings, finished devices, composite catheter shafts and hypotubes for minimally invasive, handheld, and catheter-based devices.
